San Juan County Ordinances and Resolutions Related to Solid Waste	
From San Juan County Draft Solid Waste Management Plan:	
Ordinance Number	General Ordinance Description
Friday Harbor Ordinance 1092	Regulates collection and disposal of refuse within the Town, repeals ordinances 675, 689, 693. Passes 8-98.
17-1996	Adopts 1996 CSWMP and amends county code 8.12 to be consistent with CSWMP
19-1996	Established solid waste disposal district and structure to support it
5 2001	Updates to code (8.14) adds junk vehicle definition, clarifies duties of HD
Resolution Number	General Resolution Description
25-1996	Board of County Commissioners adopt 1996 San Juan Comprehensive Solid Waste Management Plan for San Juan County
40-2003	Selecting the Sundstrom site for purchase for an essential public facility for solid waste collection, transfer and recycling on San Juan Island.
<b>Note:</b>	

## Solid Waste Infrastructure in San Juan County

### Permitted Solid Waste Handling Facilities in San Juan County – March 2004

Facility Type	Name	Public/ Private	Owner
Drop Box Facility	Lopez Drop Box	Public	San Juan County Solid Waste
Drop Box Facility	Friday Harbor Drop Box	Public	San Juan County Solid Waste
Surface Impoundment	Lopez Surface Impoundment	Public	San Juan County Solid Waste
Surface Impoundment	Orcas Septage Lagoon	Public	San Juan County Solid Waste
Moderate Risk Waste Fixed Facility	Friday Harbor MRW	Public	
<b>Note:</b>

(Source: Washington State Department of Ecology)

**Tons of Material Composted in San Juan County (by permitted facility) – 2001**

Compost Facility Name	Yard waste	Other wood waste	Sawdust	Biosolids	Vegetative food waste	Manure	Post consumer food waste	Mixed municipal solid waste	Other	Total
NONE										

**Notes:**

## Washington State Utilities and Transportation Commission (WUTC) Permitted Solid Waste Carriers in San Juan County (November 4, 2002)

Registered Trade Name of Solid Waste Company	Service Area	Certificate# (G permit)	Tariff #	Collect and Transport: MSW	Collect and Transport: Recyclables	Collect and Transport: Yard Waste	Residential Disposal Rates for Weekly Garbage Service by Container (Monthly charge in dollars)	Recycle Service Charge (When Taken With MSW Service)	Commercial Disposal Rates for Company Owned Containers (per Pickup, Non-Compacted Material)	Referenced Service Level Ordinances
San Juan Sanitation Co.	Major portion of San Juan County	G-144	6	Y	N	N	20 gallon mini-can \$15.57 32 gallon can/unit \$20.24 Multi can/unit service up to 2.	Not Applicable	1 yard dumpster \$20.96 1.5 yard dumpster \$28.72 2 yard dumpster: \$36.22.	None Indicated
<b>Notes:</b> This company will also pick up "infrequent" 32 gallon can. This service is defined as pickup using pre-purchased can tags (\$5.32 per pickup plus taxes) or "check on can" (\$6.32 per pickup plus taxes).										
<b>Service:</b> None										

### General Notes

- The above solid waste carrier information is portrayed **for WUTC regulated solid waste carriers only.**
- Categories of solid waste customers defined by the WUTC include: single family residential, multi-family residential and commercial. **Multi-family rates are not depicted here.**
- Categories of commercial solid waste collection service as defined by the WUTC include: "Container Service - Non-Compacted - Company-owned container"; "Container Service - Non-Compacted - Customer-owned container"; "Container Service - Compacted - Company-owned container"; "Container Service - Compacted - Customer-owned container"; "Drop Box Service - Non-Compacted - Company-owned drop box"; "Drop Box Service - Non-Compacted - Customer-owned drop box"; "Drop Box Service - Compacted - Company-owned drop box"; "Drop Box Service - Compacted - Customer-owned drop box". **The only Commercial rates provided here are: "Container Service - Non-Compacted - Company-owned container".**
- According to statute, Washington State cities have the authority to contract for solid waste hauling services and associated billing, or to provide their own municipal collection service. Counties have not been granted this option by the legislature. However, statute does direct the WUTC to require regulated solid waste collection companies to comply with the service levels set in the local solid waste management plan. The WUTC defines the service area and monetary collection rates for private firms that service all county residents, as well as for private firms that service those municipalities which do not provide garbage collection service or contract for such service.
- **Of the 280 cities in Washington, 187 take advantage of their option to contract for service or provide their own service. Consequently, the WUTC regulates the solid waste haulers that service approximately 49% of the state's population.** (This includes 40% of the state's population that resides in unincorporated areas, and 9% of the state's population that resides in incorporated areas.)
- Currently, there appears to be no complete tabulation of solid waste collection rates charged to residents of Washington State municipalities is available, and thus there is incomplete knowledge of the direct economic impacts of solid waste disposal on approximately 51% of the state's population.
- [A Certificate \(or "G-permit"\) means the certificate of public convenience and necessity issued by the Washington Utilities and Transportation Commission](#) under the provisions of chapter 81.77 RCW for the operation of solid waste collection companies.
- A tariff names rates for the collection, transportation, and disposal of solid waste, and if noted, recycling and yard waste (a document outlining rates, terms and conditions for providing service.) While the G-permit provides an overall legal description of the geographical area in which a carrier is allowed to operate, a tariff defines rates for services and service areas within the geographical area defined in the G-permit. Further, tariffs define the rates a permitted solid waste carrier charges to its residential, multifamily and commercial customers

San Juan Co Solid Waste	55,000	—	—	55,000		

### Litter Crew Organization, San Juan County, 2002

San Juan crews consist of juvenile and adult offenders. Summer program utilizes volunteers and summer youth groups. Crews coordinate with San Juan County's Road Department, the National Park Service, and the state Parks & Recreation Commission. County maintained (2000-2001) a "tool bank" for volunteer groups to use for litter pickup (signs, cones, litter pickers, litter disposal bags, vests, gloves, etc.)

## 2002 Biosolids Production and Land Application Information in Dry Tons for San Juan County, (See footnotes)

Facility Name	Class of Biosolids	Compost Biosolids	Total Biosolids Produced	Total Land Applied	Total Land Applied: by Specific Application Site Categories						Landfilled	Incinerated	Transported to Another Facility	Name of "Transported To" Facility	Received from Another Facility	Name of "Received From" Facility and Associated Dry Tons

- 1) Data used here are gathered from individual facilities and consolidated into a main database from which this spreadsheet is derived. Referral to the actual report forms is suggested in order to resolve questions or before drawing conclusions.
- 2) Facilities which show zero production are for year 2002 only. Production amounts can vary by large amounts from year to year depending on lagoon cleanout operations, etc.
- 3) For the categories related to TRANSPORT TO and RECEIVED FROM, tonnage sums are totaled and reported in parentheses if the sums are different from that reported by the facility. Reasons for discrepancies are varied and need to be investigated on an individual basis if needed.
- 4) The term "ctd." means that the data for the facility is continued in another column where extra lines were used so that additional data could be included.
- 5) WWTP = Waste Water Treatment Plant; STP = Sewage Treatment Plant; BS = Biosolids; LSP = Lime Stabilization Plant; POTW = Publicly Owned Treatment Works.

## San Juan County Solid Waste Priorities and Needs for the Near Future:

### PUBLIC WORKS (as reported to Ecology on client survey):

- 1) Funding
- 2) Funding and
- 3) Funding

### JURISDICTIONAL HEALTH DEPARTMENT (as reported to Ecology on client survey):

- 1) Keeping things under control.
- 2) Closing Orcas CDL landfill.
- 3) Reducing outer island waste (waste from non-ferry-served islands).

## San Juan County's Projected Solid Waste Income and Spending, 1999 (as compiled by Jeff Kelly-Clarke, Director, Snohomish County Public Works)

### Spending

Total Spending	Waste Handling*	LF Monitoring	Waste Reduction and Recycling	Moderate Risk Waste	Planning	Administration	Debt Service	Other	Capital Facilities/Closure	To Fund Balance	Operating Budget
\$2,717,000	\$1,221,000	\$15,000	\$267,000	\$52,000	\$60,000	\$197,000	\$155,000	\$0	\$750,000	\$0	\$1,967,000

\* "Waste Handling" includes transfer operations

### Income

Total Revenue	Fees from Disposal	Other service fees	Dist./city fees	Grants	Interest	Fund Balance	Other
\$2,717,000	\$1,817,000	\$0	\$0	\$550,000	\$0	\$0	\$350,000
